

OSHN Shared Services Project

List of Technicians Commonly Used in Ottawa

The OSHN Shared Services Project is exploring ways in which housing providers can sell and purchase services related to snow removal. As part of the feasibility work for this, Cahdco, the Project Manager for Phase III of the OSHN Shared Services Project, engaged housing providers to discuss their general maintenance experience. Phase III of the OSHN Shared Services Project is funded by the [Community Housing Transformation Centre \(CHTC\)](#).

After speaking with several housing providers about different licensed technicians that they commonly work with, the following list was created in hopes that it will help housing providers find licensed technicians to service units.
